Monitoring of school systems and devices:

The Trust uses an online safeguarding and monitoring system known as **Senso** to support pupil and staff safety, maintain secure school systems, and meet its statutory safeguarding and online safety obligations.

Monitoring is intended to protect pupils, staff and the school community and is carried out in a way that respects staff privacy and professional expectations.

Senso operates on school-owned and school-managed devices and systems, including Microsoft 365 applications such as Microsoft Teams, and provides safeguarding-related oversight of online activity. This may include reviewing websites visited, search terms entered, keywords typed, images viewed or shared, and messages or images exchanged within school-managed systems, where this functionality is enabled.

Monitoring is targeted and proportionate, and is focused on identifying safeguarding, security or appropriate-use concerns. It is not used for routine performance management or productivity monitoring.

Senso does not use webcams or microphones and does not monitor personal devices or personal accounts that are not connected to school-managed systems.

Any information flagged by Senso is reviewed by authorised staff only, such as designated safeguarding leads or senior leaders, and access is strictly role-based.

Where monitoring identifies a potential safeguarding concern, information may be shared with relevant internal teams and, where necessary, external safeguarding agencies, in line with statutory guidance.

Where monitoring identifies a potential breach of the Trust's policies or raises a safeguarding, security or conduct concern, the information may be used as part of an investigation and, where appropriate, may contribute to disciplinary or other formal procedures.
